Notes

- The Pulse 63 can be charged from normal Marina Power to 100% in 9.5hrs
- The Pulse 63 can be charged from 'Superchargers' to 100% in 1hr
- RS Electric Boats works with charging partners and can support FFV is there is a supercharging requirement
- RS Electric Boats can collaborate with FFV, Departments and Clubs to make use of subsidies where these are available
- The Pulse 63 Coachboat RIB has been developed with the help of Olympic Coaches to suit the requirements of sailing coaching at all levels.
